

RV STOP

"SOLO PARKING SIMPLIFIED"

The first portable parking alarm system available for RV owners

- Ultra loud "backup" style alarm
- Bright flashing light great for night parking
- 1 foot durable SensorStrip
- Battery operated

Simply place the SensorStrip where you want to stop. Move your RV until the light flashes and the alarm sounds.

RV Stop Alarm System Includes:

- RV Stop Alarm Unit
- 12 inch SensorStrip with 3 foot cable
- Heavy Nylon Storage Pouch
- 9-Volt Battery
- Instruction Manual

Product Details:

- The RV STOP Alarm Unit is approximately 2.25" x 3" x 1" and weighs 3 oz.
- The Alarm Unit is powered by a standard 9-volt battery. The battery will easily last an entire camping season since the device does not use any power when the alarm is not sounding.
- When the SensorStrip is activated, the Alarm Unit emits an ultra loud beeping tone which is similar to a commercial vehicle backup alarm.
- The Alarm Unit incorporates a bright flashing LED light that is activated when the alarm tone sounds. This feature helps with nighttime parking.
- The waterproof SensorStrip is reinforced with 3/16" hard rubber and can be used on uneven surfaces such as gravel, concrete, grass, and all types of leveling blocks. The SensorStrip can accommodate any size travel trailer or motorhome.
- The RV STOP system is packaged in an attractive cardboard box ready for retail display. The box includes high quality product graphics, usage examples, and a UPC bar code.
- The RV STOP system carries a 1 year limited warranty.
- Accessories:
 - 2 foot SensorStrip
 - 6 foot Extension cable for SensorStrip
